## **2 Contract Details**

### 2.1 Title

Coventry Very Light Rail (VLR), Track Design R&D Services (OJEU)

### 2.2 Description of the goods or services required

The University of Warwick has a requirement for the delivery of detailed, tested and verified design specification for an innovative track form, which needs to deliver a significant step-change reduction in light-rail installation costs. The objective is to identify novel structures that will enable the aggressive cost target per route kilometre to be achieved. Concept solutions will be developed via the detailed design and simulation and where appropriate through the construction and laboratory testing of key elements. The procurement process is to appoint a supplier to provide the core services of concept and detailed design for the track form, as well as component-level validation via component manufacture and testing.

### 2.3 Notice Coding and Classification

### 2.4 Total quantity or scope of tender

## **3 Conditions for Participation**

### 3.1 Minimum standards and qualification required

## **4 Administrative Information**

### 4.1 Type of Procedure

The procedure type is unknown.

### 4.2 Reference number attributed to the notice by the contracting authority

VLR

### 4.3 Time Limits

Responses by 15-02-2019 Time 23:59

### 4.5 Language or languages in which tenders or requests to participate can be drawn up

EN

### 4.6 Tender Submission Postbox

## **5 Other Information**
